

GRAND TOUR OF THE SMALL VILLAGES

A weekend among the unique and evocative villages of Valdelsa Val di cecina, for individuals of camper lovers

This road itinerary leads to the discovery of an intimate Tuscany off the beaten path, winding through the most authentic hamlets of the Valdelsa and Valdicecina territory.

Ideal to be traveled by camper van, the journey combines important historical landmarks with small villages like Abbadia a Isola and Staggia Senese which, as if frozen in a photograph, have preserved their original shape intact over the years.

It is an atmospheric route where the power of the land, between the ancient mining tradition of Montecatini Val di Cecina and the geothermal energy in the area of San Dalmazio and Radicondoli, blends with unspoiled nature, genuine cuisine, and the silence of timeless villages.

Tour for individual travelers
